Our most active customers will receive our bulletin automatically and free of charge. However, collectors interested in highly specialized areas and those who may order infrequently are asked to subscribe, as are those who want the bulletin by air mail. The names of non-subscribers may be removed from our mailing list at any time without notice.

Postage and insurance (or registration) fees will be billed to customers who order without sending advance payment. We will absorb the mailing fees on orders accompanied by full payment. All orders under $5.00 must include $.25 for handling. The above also applies to overseas orders. However, we cannot be liable for coins sent to countries that do not provide for insurance.

Applicable Texas Sales Tax must be included on all intra-Texas transactions. Texas dealers must furnish their permit number in order to be exempt from the tax. All prices quoted are in United States Funds.

All coins are guaranteed to be genuine unless otherwise noted. All items except books and coin supplies are sent on five day approval. Unless prior extension is arranged, all items must be completely paid for within fourteen days after their dispatch from our offices. After that a 1% per month interest charge will be added.

EIGHT REALES AND PESOS OF THE NEW WORLD

The references used to catalog this section are: Primarily Elizondo's Eight Reales and Pesos of the New World book, the first numbers being the code numbers and the "E" numbers being the type. Then each coin is cross-referenced to either Yeoman's Catalog of Modern World Coins book or Craig's Coins of the World 1750-1850.

Elizondo's numbers are being used by all of the leading numismatists in the United States and overseas. Collectors without a second edition are urged to obtain a copy. The book is available from us at $12.50 postpaid.

GUATEMALA COUNTERSTAMPS have become increasingly popular since they were listed by date in Elizondo's 2nd edition and so we have been selling them as soon as we get them. The collector will be interested in realizing that the prices indicated on pages 192 and 193 of Elizondo's book are meant to be for Fine, Very Fine and Extremely Fine. You can verify this by looking at pages 194 and 195. Also, in 99% of the cases the counterstamped coins are rarer than the regular issues. If you compare evaluations in Elizondo's book of the regular issues and counterstamps, you will note that some of the counterstamp evaluations are lower.

Illustrated above are some examples of obverses and reverses of CR-20, FR-28 as listed on page 39. As can be seen from the photo these somewhat crude pieces vary considerably in size. A real conversation piece which will be of interest to any collector.

Representative reverses & obverses of CR-21, FR-324 or 325. As can be seen from the photo the type is quite different from CR-20. It seems as though the choice of design depended pretty much on the whim of the person minting at the time.
